

Reporting No: 4

Week No: 5

From: 09/01/23 To: 13/01/23

Project ID: PRJ2022DCE022

Project Title: Training

WEEKLY REPORT

Work done in last week (Attach supporting Documents):

1. Learned about all database related concept.
2. Learned concept related to PostgreSQL database and also learned DML and DDL.
3. Task: - Created database design and table for WebIMS clone with constraint and using 3NF and also created ER diagram of this database.

Reason for incomplete work:

1. Chart number auto Increment is missing.
2. No column present to store address-type.

Plans for next week:

1. Complete database design and table implementation for WebIMS clone web-app.
2. Implementing queries for searching, sorting and pagination using functions and stored procedure.
