

## WEEKLY REPORT

### **Work done in last week ( Attach supporting Documents):**

1. Implemented all review points which got in last week.
2. Also edit the stored procedure for getpatientreadlist, getpatientallergyreadlist and getpatientfilter.
3. Review points which are given.
  - For patient sexid i have to use mic value table but i created the new table for the patient sec details.
4. Start working on the given review points.
5. Pass the Typing test for certification of the typing.

### **Reason for incomplete work:**

1. I have to change the table of Patient sex which i created new but i have to use existing.

### **Plans for next week:**

1. Try to finish all the review points and complete the task.
